The Name of Website: The Local Tavern

The description of the topic:

The local Tavern will be a chill restaurant where guests can come in and enjoy amazing food and company. With a fun patio outside featuring a huge projector great for game days, as well as multiple TVs along the bar, guest can come in and enjoy their favorite sports with a nice glass of beer. We will serve a full menu as well as a great selection of drinks. Weekends, we will stay open late for our guests to enjoy those late games. We strive to create a fun environment for everyone of all ages to come enjoy.

A list of Pages:

Home page, About us/contact us, Menu page, Join our teams page, Events page

Description of data:

I will be able to create and store data for the menu, allowing only me and the admin team to edit it in case of menu changes or price increases/decreases. The guest will be able to view the menu from the website and be able to fill out a form to contact us. They will be able to see the events page that only the admin can edit/ change to keep it updated. And they be able to see our positions offered and applications through the website.
